Visakhapatnam, Andhra Pradesh | +91 8790647645 | koneti.trivikram@gmail.com

PROFESSIONAL SUMMARY

RF Engineer with 1 year of hands-on experience in satellite communication and RF testing at Avantel Limited. Strong knowledge of RF fundamentals, MSS systems, and troubleshooting. Experienced in system integration, validation, and documentation. Seeking RF / Telecom / Communications Engineer roles.

RELEVANT EXPERIENCE

Avantel Limited, Visakhapatnam | Graduate Apprentice Trainee - RF Engineer | Jan 2024 - Jan 2025

- Worked on Mobile Satellite Services (MSS) projects including MSS Xponders, MSS Hub, and RTIS.
- Performed RF signal testing, monitoring, and troubleshooting to ensure system performance.
- Assisted in RF system integration, validation, and operational support.
- Analyzed RF issues and supported fault isolation and resolution.
- Prepared technical documentation, test reports, and configuration records.
- Strong fundamentals in electronics: circuit theory and electronic components.
- Familiar with PCB testing concepts: continuity, functional, and component-level checks.
- Hands-on experience with oscilloscope and other electronic test instruments.
- Able to read and interpret circuit diagrams and schematics.
- Good troubleshooting and analytical skills developed through RF fault isolation work.

TECHNICAL SKILLS

RF & Communications: RF Testing, Satellite Communication, MSS Systems, Link Budget Basics

Test Instruments: Spectrum Analyzer, Signal Generator, Power Meter, Oscilloscope, Multimeter

Systems & Protocols: MSS Hub, Xponders, RTIS

Other: System Integration, Debugging, SDLC, Documentation, Circuit Diagram Reading

EDUCATION

B.Tech in Electronics - Nadimpalli Satyanarayana Raju Institute of Technology | 2019 - 2022 | CGPA: 6.96

Diploma in Electronics - M.R.A.G.R Government Polytechnic | 2014 - 2017 | 73.95%

SSC / 10th - Government High School, Pendurthi | 2014 | GPA: 9

STRENGTHS

- Quick learner with strong adaptability
- Effective cross-team collaboration
- Good problem-solving mindset
- Clear technical communication
- Able to work in production and live-system environments
- Time management and task prioritization
